

## **American Royal Equine Entry Requirements**

In order to maintain the integrity and biosecurity of the American Royal equine events and facilities, all Equus must provide the following documentation upon entering the American Royal property. All showing, non-showing, haul-in, or stabled Equus must provide health documentation. Failure to do so may result in the inability to enter the respective equine show until proper certification has been obtained or removal from the American Royal facilities.

Upon arrival to the American Royal facilities, all Equus must provide the following at the Check-In Gate. Back numbers will not be issued until the following information is provided:

## **Event Participation Declaration – See Page 2**

 This document must be signed by the owner, agent, or trainer stating that the horse has been healthy with no sign of disease and has not had a fever above 102° within 72 hours (3 days) of arrival. Participation in multiple shows requires a signed Event Participation Declaration for each individual show at the American Royal. The Event Participation Declaration can be found at the end of this document and online at americanroyal.com.

## **Proof of Equine Health Documentation**

- All Equus must provide the following documentation to the check-in staff, <u>regardless of</u> state of origin. This includes horses residing in Missouri and Kansas.
  - 30 day Health Certificate issued by a veterinarian
  - Negative EIA (Equine Infectious Anemia) test results (a Negative Coggins)
- The American Royal has the right to change the duration of the Health Certificate under guidance of the American Royal Veterinary staff.
- Failure to present these documents will result in proper testing by the American Royal Official Veterinarian at the expense of the horse owner. The cost of testing will be \$20, cash only, at a minimum. Horses may be quarantined until a vet inspection is completed.
- Please keep a copy of all equine health documents in an easily accessible spot during the
  duration of the show. Random equine health checks will occur. Any horses showing
  questionable signs of illness are subject to examination by the Official Veterinarian
  and/or show officials who then have the authority to place the horse in quarantine or
  take further action if necessary.
